

stingray aluminum shade sculpture

essential parasols

"Design-in-motion" best describes this TUUCI's shade innovation. An expansive wing to wing birth of shade puts the Stingray in a class of its own. With a blend of elements from the natural world and state-of-the-art marine-grade materials, the Stingray is both distinctive and durable. Rotating 360 degrees around its vertical axis, the sculpture can position itself for shade at any time of the day. From the smallest detail of its intricately laced, tensile shade skin to the polished, wrought aluminum armor-wall mast, the Stingray is built for years of blissful and inspired shade luxury.

NOTE: minimum 600 lbs anchor required or in-ground installation recommended.

shapes & sizes

free form

ft. / m.
7' x 10' / 2.1 x 3.0
9' x 13' / 2.7 x 4.0

features:

- a. Intricately Laced Marine Rigging
- b. Reinforced Fixed Frame Structure
- c. Locking lever for 360 degree rotation
